

## Gallery Blocks & Cube Décor (2 week service)

Similar to Gallery Wraps, images for Gallery Blocks are printed on a metallic paper and laminated to a sturdy wooden box. They can be ordered as Single Gallery Blocks or as Floating Gallery Blocks which have one larger block as a base then other blocks mounted onto it for a stunning dimensional display! Some background displays are available in ProDesign under the Options palette or you can import your own. Cube Décor brings your images to a new dimension. These cubes are a unique way to decorate your space and are even better when ordered in displayed in groups.
