

Event Packages & Sports Made Simple

(3-5 day service) (10 day service)

Our **Event Package Pricing** was designed to save you money when sending in images from sports leagues, school dances and other events where you have a minimum of 24 exposures and consistent lighting. Enter all ordering information into a spreadsheet and upload images through our ordering software. You will receive your prints ready to package. Have Printmakers package the job for you at 10% of the job total. Die cutting is included in wallet pricing.

With our **Sports Made Simple** program your life will be even easier! Photograph the event and submit your images with your clients' emptied envelopes. We will enter all the information into a database, print them, sort them and package them ready for you to deliver to your customer.

Metallic Composites

(3-5 day service)

Nothing captures the energy of an athlete like these action collages. Just provide us with action or posed shots, text (name, school, etc.), size preference, and choice of background. Our team will design a collage that will stand out from the crowd!
